

iADHS Project 1 Backyard Patio Deck

Sammi Fuller

Hello, my name is Sammi Fuller and I am an ambassador also a part of the founding class of iADHS(iLEAD Agua Dulce High School). My 9th grade class and I are doing a project to Build Our Dream High School.

Our Driving Question is:
How Can I Use My High School Experience
So That I Can "Show Up"
In Life & Community Now & After High School

Other learners are creating murals, designing our studio room, and decorating the classroom. I will be designing our high school backyard and building a patio deck not only for my class to enjoy but many years to come. I decided to build a deck so that classes have an outdoor area to work on group projects and socialize at breaks. This also gives us responsibility to maintain the backyard area so furniture doesn't get ruined. The deck will be 12ft x 12ft with railing and amphitheater stairs. Also with the current cost of materials we are estimated to be spending about \$1,500. Any extra money will go towards furniture and comfort for the deck and backyard area. If you want to donate time, supplies, or money please visit [DonorsChoose.org](https://www.donorschoose.org) (look up ILEAD Agua Dulce, project with Dr. Movsisyan) or contact iLEAD Agua Dulce at ileadaguadulce.org/contact-us/ and (661)-268 6386 (during school hours).
