

Falcon Chronicles

iLEAD Agua Dulce High School

Highlights

We have transitioned from data collection to data analysis as our agar culture of Lions Mane [H.E.] and Reishi [G.L.] began to show fruiting bodies. We also expanded our vocabulary as we better understood how to describe mycelium from our expert. We greatly appreciate our *Mycologist Jonathan Fredette* and our *Maker Kathleen Fredette* for continuing to expose us to the world of Mycology and how it supports wellness for humanity and our earth.

PBL

DRIVING QUESTION 2

How can our understanding of Mycology support wellness for humanity and our Earth?

SEL

WHO ARE WE?

As we discover who we want to become individually, we are also cultivating our inter/intra personal skills by embracing the 8 Habits.
